

Instructions for watering in the Memorial Garden

- The hose, watering can and container for plant refuse are located in a semi-enclosure on the west side of the garden.
- There are 6 pots flanking the 2 columbariums and the memorial wall and a large planter to water and dead head (picking off spent flower heads). Please dispose of plant refuse in the container near the hose. Dead heading encourages the plant to produce more flowers. Pinch off any dead leaves.
- Feel free to pull weeds around the garden-an in ground watering system takes care of the shrubs and perennials.
- Please turn off the water and wind up the hose when you are finished watering.
- If you are unable to water during the week you signed up or if you have any questions, please call or email Patti Thacker 715-781-5134 pattithacker@gmail.com
- Thank you for helping care for the garden and keeping it looking beautiful!
