22- Parent Chapel

24- Joy the Comfort Dog Visit

27- Acceptance Letters Emailed to Families

A WRAP UP ON MARCH....

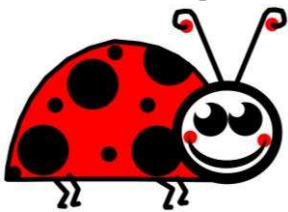

We kicked up a lot of dirt in March as we learned about all the different Animals God has created!

We had a blast as we turned our school into a zoo and had to hunt for all the different animals. We explored the different tracks the animals make and even pretended to be animals!! March was filled with animal-loving exploration all the children enjoyed!

SPRINGING INTO APRIL!!!!

After learning about God's animals, this month we are going to learn about all of God's small creatures! We are going to explore earthworms, insects, spiders and other small creatures through engaging activities for each age group. The children will get to participate in spider races and make their own dirt dough! The children will get to see and touch real earthworms and learn how God provides for these small creatures and uses them for a purpose.

IMPORTANT NOTICE

Day One will be **CLOSED** April 3rd & 6th.

In His Name,
The After-School Program Team
