Lamentations 3:22-23

Chronicles

2021 Fall Edition

Reverend Dr. Kevin Sturdivant

Lamentations 3:22-23 is a gracious reminder of God's faithfulness. It's one of my favorite scriptures. If you read the entire chapter, Jeremiah, in his usual fashion, is sharing the difficulties going on in his life and of God's people. Jeremiah shares many of his negative experiences during his time as prophet. He shares how he feels alone and boxed in. He shares how he feels he is the object of ridicule and shame. But in verse in 19, after spending time remembering all his afflictions and pain, Jeremiah says I can't remember all of that without remember also how good God has been. Jeremiah says as I remember the bad, I also have hope. The hope that Jeremiah has is due to the fact in despite what he has been through Jeremiah is still alive. He says in verse 22, "Because of the Lord's great love we are not consumed" (NIV). The fact that Jeremiah is alive gives him hope because it means that God is not through with him yet.

That's what I want to share with you. The fact that you are still alive should give you hope because it means God is not through with you yet. As we enter this Fall season, be reminded God is still working, healing, shaping, and directing. God is not through with you yet. The hope of the fact that God is at work reminds me of the words of the old Gospel song, "when God gets through with me, I shall come forth as pure gold." God's faithfulness can be seen in the fact that as bad as it has been, God is still working. Praise God for that.

“GREAT Is His FAITHFULNESS!”

By Johnny Ray Moore

poet & children's author

The start of each day is a BLESSING,

It’s proof that The LORD answers PRAYER.

To be FILLED with His Spirit is PRICELESS,

He’s ON TIME and is EVERYWHERE!

The Love of The LORD NEVER ceases,

His mercies NEVER end.

His FAITHFULNESS is ever so GREAT,

He BLESSES AGAIN and AGAIN.

No matter the size of the problem,

Be it REAL or an act to deceive.

The LORD is The One who will make it ALRIGHT,

He’ll deliver you, if you BELIEVE.

So let us ACKNOWLEDGE His Presence,

It’s what we should do, day by day.

His FAITHFULLNESS is a gift to the world,

Why not let The LORD show YOU the way?

Even though we are going through a pandemic, God showed up once again for the Springfield Baptist Church seniors. Special thanks was given to Pastor Dwight O. Steele Sr for that powerful word. Also, Rev. Clevester Hawkins for the part he played as MC for the occasion. SAINT INTERROGATOR

Vanessa Adams

Vanessa Adams is a native of Clayton, North Carolina. She is the oldest of seven siblings, mother of two children and the proud grandmother of four. Her daughter Monica and granddaughter Karina are members of Springfield. A former member of Oakey Grove Baptist Church located near Smithfield, North Carolina, Vanessa was sent to Springfield by her former church with the intentions of learning about the SBC A/V Ministry. This information was to be taken back to her home church to assist them with starting a television ministry; however, after having several "worship experiences" she knew that Springfield was where she wanted to worship. On April 24, 2005 Vanessa received her right hand of fellowship with Springfield Baptist Church and began working with the AV ministry as a camera operator on May 1, 2005 where she served for 6 1/2 years. Currently, Vanessa is a member of the Drama Ministry serving as stage and props manager. Over the years at Springfield, she has participated in Crown Financial Ministries (small group study 2006), served on the 2009 Women's Day committee, served on the 30th Anniversary Banquet committee for Reverend Daniel Sanders (2010) and served on the 148th Homecoming committee in 2014.

As a 1979 graduate of Clayton High School and undecided on a career path, Vanessa's love for photography led her to attend Johnston Community College where she received an Associate Degree in Commercial Art and Advertising Design. After going to her first job interview with Kodak in Raleigh, Vanessa was shocked at the job offer she was given and felt the pay was too low so she decided to accept a job working at Fieldcrest Mills automatic blanket plant in Smithfield. After working for Fieldcrest Mills for 4 1/2 years she decided to take the postal exam.

In March of 1985, Vanessa was hired by the United States Postal Service. *Neither rain, sleet, snow, dark or gloom of night nor a pandemic* has kept her from her appointed rounds as a city letter carrier for the past 36 1/2 years. Through the years Vanessa has received the 1991 Delivery Efficiency Achievement Award, several safe driver award pins and most recently in June 2020 she received the 1,000,000 Mile Club Award. Vanessa is currently the senior city letter carrier of Raleigh and serves the 27610 area.

Vanessa enjoys spending time with family, photography, doing crafts and laughter. Her favorite song is "If I can help somebody" and her favorite scripture is Ecclesiastes 9:10 "Whatsoever thy hand findeth to do, do it with thy might."

Wisdom from Springfield's Small But Mighty Members

Who is God to you? God to me is a really good friend who is kind and always with me. He is a really great and important person; who amazes me with how he takes care of all of us.

Why is having a relationship with Him important? Having a relationship with God is important because if you don't, you will miss out on his blessings. And, you have a higher chance of being dragged and tricked by the devil if you don't have a relationship with God .

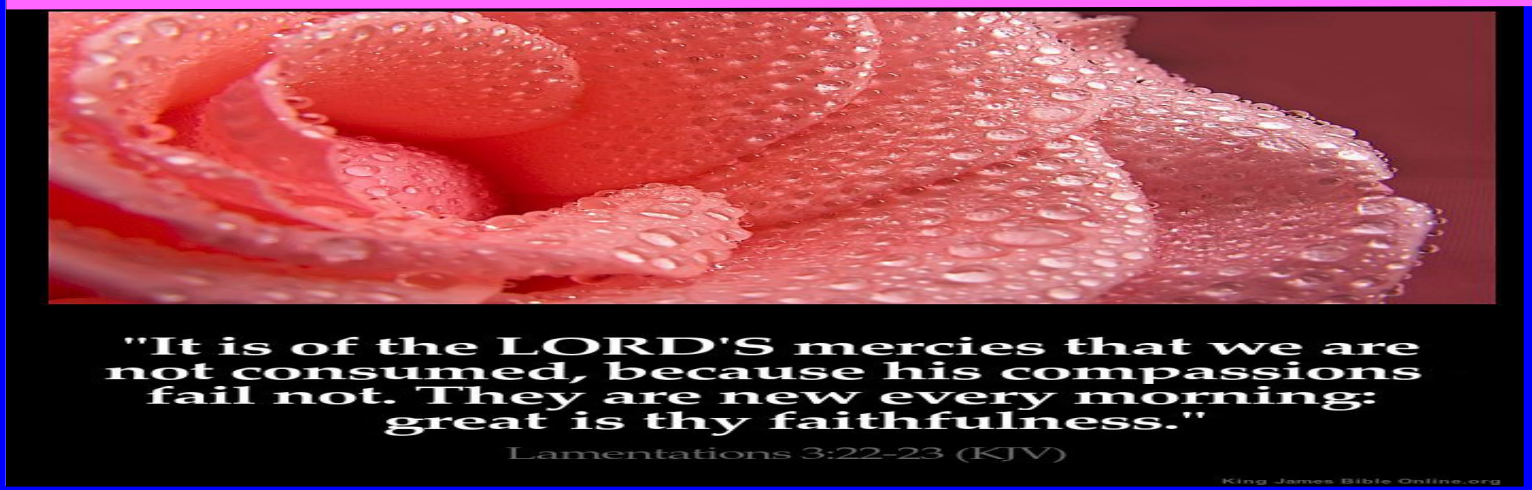

How do you show your love for God? I show my love for God by treating people with kindness, patience and respect. Besides, the way you treat people will come back to you, so I try to be good.

Do you have a favorite scripture? If so, what is it and why? One of my favorite scriptures is one that the Pastor gave me. God has not given me the spirit of fear but of power and love and a sound mind. I like this one because it is comforting to me when I'm afraid. (2 Timothy 1:7)

Scavenger Hunt

- After all items are collected we will go through and discuss what each person collected.

Bible Study/Craft Night – Sept.2021 Matthew 7:7

The year has continued to be one full of surprises and first-time occurrences. Due to this the Children's ministry has had to be agile and open to change. While we focused on engaging the children from a virtual space initially also focused on having fun and keeping the children excited about Jesus and active in the ministry.

The Ministry's continues to focus on:

1-Continue striving for the salvation of the children

2- Using Bible lessons & stories that point to the Gospel of Jesus Christ to give children a more in-depth view of God's redemption plan for our lives.

3- The children will get an understanding of who we are in Christ and how we can always be ready to face any situation.

Some activities to help in these efforts are newsletters being sent inclusive of content & fun activities and virtual activities highlighted in the pictures around.

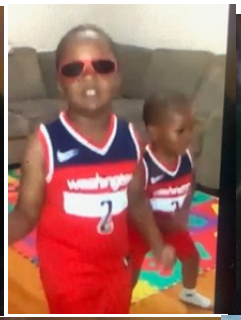

We need your support in bringing your children whether it is online or in person so we can continue to spread the Gospel to the world.

Wealth

SBC Economic Empowerment Ministry

Sunday school is and has always been an important staple of the Church. It provides structure for teaching God's Word and gears Bible teaching to specific age groups. The EEM has been a part of Sunday school for several years providing guidance, teaching and collaboration in Handling Our Finances God's Way.

We are currently discussing the book, "The Black Financial Literacy & Wealth Building Bible" by David W. Fontaine. This book was written to help with individual, family and community economic empowerment. The author states his father told his children "we have no right to complain about anything if we are not willing to do something about it." This came from a man with an 8th grade education. The book can be purchased via Amazon; please order one and join our Sunday school discussion. We are looking forward to the author hosting an upcoming seminar later this year to share his thoughts on the book. Here are some contents of the book to provide a sampling for the topics of discussion.

WISE UP WITH NU iMAGE Surgical & Dental Implant Center

THE WISDOM TEETH EXPERTS

Get Wise About Your Wisdom Teeth

We understand that getting your wisdom teeth removed is not on your list of top 10 things to do in your lifetime. Wisdom teeth removal seems to be the most predominant rite of passage into adulthood for Americans. In fact, about 5 million Americans get their wisdom teeth removed each year. Beyond a rite of passage, wisdom teeth removal is one step toward a lifelong process of taking good care of one's oral health.

To begin, oral & maxillofacial surgeons are known as wisdom teeth specialists due to their surgical expertise, additional extensive training, and thorough understanding of esthetics and function. Although a general dentist can perform an extraction, wisdom teeth removal is a more complicated extraction process than other teeth. When wisdom teeth emerge, they tend to come in sideways because there isn't enough room in the mouth for their upright eruption. While other teeth can be removed with tools a general dentist uses and without anesthesia, impacted wisdom teeth cannot. This procedure requires sedation and surgical instruments, both of which an oral surgeon can provide.

Wisdom teeth extractions are just one type of procedure that oral and maxillofacial surgeons specialize in and do routinely, thus giving them a greater level of expertise than a general dentist who may only remove wisdom teeth occasionally. In fact, some general dentists don't handle wisdom teeth extractions at all.

You might be wondering what age is typical for one to get their wisdom teeth removed. For some patients, it can be as early as 11 or 12 years old, whereas for others it may not be until around 17 or 18 years of age. The doctors recommend 15 as the age when most patients should have their wisdom teeth removed. Younger patients tend to heal faster, and more predictably, with fewer complications than older patients. However, this does not mean that an adult cannot get their wisdom teeth removed, as well, if needed. In fact, we highly encourage you to set up a consultation with our doctors if your wisdom teeth are causing any discomfort or pain, regardless of your age. As a person ages their jawbone becomes denser. As their wisdom teeth develop, the roots grow longer and become closer to the nerve, making removal more difficult and significantly increasing the risk of complications. ***It is unwise to wait until your wisdom teeth start to bother you before you act. Frequently people are unaware of problems with their wisdom teeth because they experience little or no symptoms.*** Although wisdom teeth should be taken out as early as possible, Nu Image has the expertise combined with cutting edge technology to provide patients of all ages with the best care possible.

Wisdom teeth, also known as the third molars, are the largest teeth in the mouth. Originally, wisdom teeth served important functions for our ancient human ancestors who had jaws that were large enough to allow the wisdom teeth to erupt properly. Today, this is no longer the case. Our jaws are much smaller now, and often the wisdom teeth are not able to push through the gum and bone. Wisdom teeth can be very problematic due to the limited amount of space they have to erupt within the mouth. This is what we call impacted wisdom teeth. Impacted wisdom teeth can create significant risks to a patient's oral health, including infections, cysts and abscesses, and acceleration of gum disease. Additionally, as impacted wisdom teeth continue to try to erupt, they will cause discomfort and damage to other nearby teeth in the mouth. Due to the lack of space, the nearby teeth may shift out of position, trying to make room for the wisdom teeth.

Crowding

Impacted and Infected Tooth

Damage to 2nd Molar with Roots Pressing Against Nerve

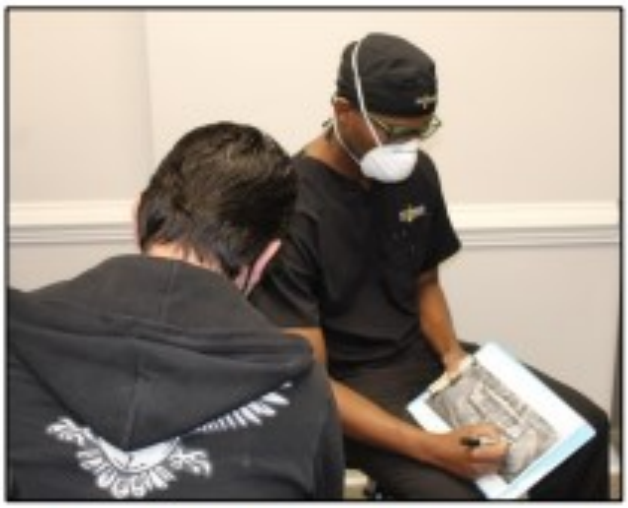

Cyst Formation

Impacted teeth can take many positions in the bone as they attempt to find a pathway that will allow them to erupt successfully. They may grow sideways, partially emerge from the gum and even remain trapped under the gum and bone. The removal of impacted wisdom teeth is necessary to prevent future problems. These problems include infection, damage to adjacent teeth, acceleration of gum disease, damage to the jawbone by cyst and tumor formation, and overcrowding of the front teeth. These problems tend to occur with increasing frequency after 30 years of age. Many patients will opt to have an oral surgeon remove their impacted wisdom teeth before any symptoms even develop.

A wisdom tooth that has only partially erupted into the mouth is said to be partially impacted. Because of their positioning in the back of the mouth, brushing and flossing is very challenging. Therefore, partially impacted wisdom teeth are more susceptible to gum disease and tooth decay.

For many patients, wisdom tooth extraction is the first experience with oral surgery.
