What are the characteristics of the church and community?

Williamsport is a small but vital community approximately 10 miles southwest of Hagerstown MD. The congregation relocated to a new facility in 2019 and has welcomed the new ministry opportunities that more space and more resources provide. This faith community is passionate about outreach to the community and forming strong partnerships with organizations beyond the church. They have demonstrated their willingness to adapt and change as new circumstances and opportunities present themselves.

What is the vision for the next 3-5 years?

Rehoboth is committed to continued growth and health as they make disciples and serve their community. They envision a church that continues to reach out beyond their walls, incorporate new people into their corporate life and embrace the blessings the future holds. The lay leadership of the church values their collaborative work with the pastor and staff by bringing their professional expertise and deep commitment to the church's mission.

What are the expectations of the pastor?

The pastor of Rehoboth would be one who preaches, teaches, leads, and lives from the core of a deep and growing faith; one who works alongside and encourages others in their discipleship and service. They should have the ability to engage all generations, as all ages are a vital part of the church's life. Excellent people skills, creative problem-solving, and a willingness to model humility as they serve, are highly valued. Rehoboth would be best served by someone who can manage a variety of ministries in a highly adaptive environment where challenges are viewed as opportunities rather than obstacles.
