

Green Lawn missions around the world

April 2025

Adriano & Coral Freire – Recife, Brazil

“Having a studio like ours here in Brazil allows us to create supporting materials for congregations in various areas, from creating hymnals a cappella, contributing to content creation for YouTube and other streaming platforms, to nourishing the Adoração e Harmonia app with new songs. It also helps ministries that spread the gospel, such as the EBNESR preaching school, which in a few months will become a university, to the honor and glory of our God. Both EBNESR and ARCA teachers have used the studio to record video lessons that will accelerate and expand the distribution of training and knowledge.”

Daniel & Mara Alvarez – Matamoros, Mexico

“Many things are happening in Matamoros! Our winter quarter was full of activities and visitation. For the first time, we hosted a Singing School to train worship leaders and teach church music. We also visited and encouraged the church in Palos Blancos community in San Fernando County. We thank God for the opportunities he’s given us to serve and continue his work, not only within the Vizcaya congregation but beyond our walls and into the community and other congregations. Come and visit us soon!!!”

Paul & Janet Hill – Leicester, England

“I will have completed teachings on Eldership and other helpful studies. Leicester hosts capable brothers, some of whom have attended bible schools and held preaching ministries for congregations and likewise been ordained in the ministry as preachers. These brothers will take on the responsibilities for the wellbeing of the church and continue according to scripture to lead the body in Leicester. I know these brothers will do a great work in Leicester. Please keep the church and leaders in prayer.”
