

CHURCH
of CHRIST
LEICESTER

The year is getting close to completion, November was busy with the ministry in Leicester and new congregations, the work is wonderful, I have had long days with travel to each congregation along with the Leicester ministry.

I am slowly stepping back and handing more responsibilities to the Leicester brethren who are developing in a wonderful way.

Sunday morning class I am teaching Eldership and the entire congregation attend.

Please pray for the growth and development of Elders here in Leicester.

Wishing you all

We simply wish you all a very happy thanksgiving. Janet our children and myself have much to be thankful for, each and every one of you is a participant in saving souls here in England.

Over the past year, new congregations have been established, Elders and now preachers are being appointed, students are enrolling the bible school and most importantly many baptisms have taken place, so much more is coming with new congregation locations on our minds and outreach to grow the kingdom.

We share this ministry with each one of you and give God fully all the glory.

Coffee class and study outreach

Each Wednesday we hold a study class serving Tea/Coffee and fellowship as we sit around and study the word.

We have two weeks class and then the third is discussion groups on past lessons.

I have taught the kings of the bible and have now moved on to teach the minor prophets.

We have an attendance of around 40 students per. night.

Leicester brothers preach through November

Our brothers are preaching the gospel here in Leicester, we are so blessed and it is exciting to work with these brothers and see the development.

We are also training our younger men in homiletics and ministry leadership.

This kind of work is so important in order to sustain new congregations.

If the congregation becomes reliant upon myself then growth will not develop.

In total we have around 8 brothers who are capable to preach, some are working alongside myself to help them develop.

My plan is to work with the newer congregations in the same way in order that they can become equipped and strong.

I will be teaching eldership in all congregations over the months.

New bibles given to the community

Some of our amazing sisters have been out in the community giving bibles to those in are area, it is a true blessing to see the good work taking place.

Our sisters meet two Saturdays per month and spend time in study, fellowship and community outreach.

We are so thankful for the ongoing efforts made by them all.

Appointing a new preacher in Erdington

The new congregation in Erdington has grown rapidly doing such incredible work for the kingdom.

The congregation has grown with many baptisms, it has been a blessing to support and work along side the congregation.

Sunday the 1st of December I will be attending worship, teaching and preaching the congregation. At the conclusion I will be appointing a new full time minister and preacher.

Brother Atta Owusu Assiamah who is an extremely wise and knowledgeable brother will take his new ministry, I will be working with him to encourage him in this wonderful work and offer guidance and support.

Our new convert Jamie

Jamie is doing so well, Millie studies with him daily and he is fired up for the work.

Jamie & Millie are starting a new podcast for outreach to the youth, they are also reaching out to old friends by studying and teaching in coffee shops and a local gymnasium.

They meet a group Tuesday and Thursday nights and are looking at ways to break barriers amongst younger folks.

Jammie and myself have also been reaching out via the internet and God willing will be baptizing a man who we have not yet physically met

Thank You all

We are so thankful for the overwhelming love we receive in financial and spiritual support. We especially appreciate the love shown whilst Janet continues to battle her health.

Janet still struggles and at times loses her memory, and becomes housebound, she fights to stay strong and utilizes every opportunity to serve the kingdom and support the work and family.

We feel the love of each one of you, the work continues and souls are being saved here in the UK, thank you all for sharing this work with us to Gods glory.
