

Pearl Harbor Christian Academy (PHCA) only authorizes the use of its iPads in a manner consistent with established instructional, research, and administrative objectives of the school. Students are still subject to all handbook policies, Internet use policies, as well as the following iPad Usage Rules and Policies (iURP).

### **OWNERSHIP**

iPads issued through PHCA are the property of PHCA. Students have no ownership, interest, or right to title in the iPads. On occasion, PHCA may offer PreK-2<sup>nd</sup> grade students the option to own one of their classroom set iPads (as is) with the case (as is). There is a buyout/transfer fee and ownership transfers to the student for home use only.

### **GENERAL PRECAUTIONS**

- PreK-2<sup>nd</sup> grade all have a classroom set of iPads that are generally used only at school. In the event iPads go home, parents are expected to help guide and monitor iPad use at home as described in the **DAILY ACCEPTABLE USE AND RESPONSIBILITIES** on the next page.
- **2<sup>ND</sup> GRADE:** Students take home their iPads in 4<sup>th</sup> quarter to practice responsibility for using in 3<sup>rd</sup> Grade.
- Students must always handle all iPads with care – this includes the iPad issued to them, as well as iPads issued to other students. Damage caused by intentional, reckless or careless actions will not be covered by insurance and students will be charged accordingly.
- Open lid drinks or liquids are not allowed next to your iPad while it is in use on school property or any school related events. The same care should be practiced at home.
- Take special care to protect your iPad from moisture and liquids. Do not use in the rain or near water activities, as **water damage is not covered** will not be considered “accidental”.
- iPad cables must be inserted/removed carefully. Cables must be wound carefully and stored in a way where they are not smashed, kinked or exposed to liquids.
- iPads must never be left in a car for prolonged times or unsupervised areas - not only to protect against theft, but damage from freezing or extreme heat.

#### **Transporting/Carrying iPads:**

- iPads should always be kept securely in the protective case that was provided with the iPad. The case will only provide basic protection from scuffing and scratching.
- The iPad should be closed (for cases that close) in the protective case when carried or stored.
- When closed, the iPad case should “sleep” the iPad. However, the iPad should be shut down when not in use for prolonged periods of time in to conserve battery life.

**Screen Care:** The iPad screen can be damaged if subjected to rough treatment. The screens are particularly sensitive to damage from excessive pressure on the screen.

- Do not sit, lean or put excessive pressure on screen or any other part of the iPad.
- Do not place anything near the iPad that could put pressure or fall on the screen.
- **Do not place anything in the carrying case between the screen that presses against it including paper.**
- Only use stylus pen made specifically for iPad use and do not use any other objects to interact with the touch screen. Make sure your stylus tip is not damaged or dirty.
- For Screen Care go to: <http://support.apple.com/en-us/ht3226>
- Do NOT use window cleaner, household cleaners, compressed air, aerosol sprays, solvents, ammonia, abrasives, or cleaners containing hydrogen peroxide to clean iPad.
