

Choose Your WIG Adventure for 2024

The origin of the metaphor “How do you eat an elephant? One bite at a time” is uncertain. But everyone agrees on its meaning: Daunting tasks can be tackled by breaking them down into smaller, more manageable parts.

To achieve our 7-year Wildly Important Goal (WIG), we need everyone to start taking small, consistent steps beginning this year. But we don’t expect you to know exactly how or to do it alone. The teams of congregants, Board members and staff that developed the 2024 goals described on the back side will equip and resource you, walk with and pray for you!
