

Road Trip: On the Go with God! Week 2
An Army of Grasshoppers
Numbers 13:25 -14:9
Week of July 13, 2025
Group Discussion Guide

Read together Numbers 13:25-14:9

1. After God rescued the Israelites from slavery and led them out of Egypt, they soon began to grumble and complain. Still today, we often whine, grumble and complain, even as we know God is with us. **What are some ways to decrease the mumbling and grumbling and respond differently?**

2. **Are the situations in your life now or in the past that seem overwhelming? How does FEAR make problems worse than they really are? What are ways you can react with Faith instead of Fear?**

3. Caleb and Joshua see their situation through God's eyes, knowing he is on their side. **How will a problem be different if you bring God in on it?**

4. When the people complain to Joshua and Caleb that they are only grasshoppers compared to the Canaanites, Joshua replies "Yes, an army of grasshoppers that will swarm all over the land." Numbers 14:9

In Sunday's sermon, Pastor Doug said you can't have a swarm with just one grasshopper. You need legions of them. That's why at Woodside we focus on multiplication – Four Worship Services instead of one, multiple growth groups and mission projects. **How can our group multiply what God has given us?**

5. Swarms Move In – they aren't contained. They saturate an area. We need to get out of church and go where the problems and people are. **Have you served in a mission area/team? Share with the group what you've learned.** On November 2 Woodside will leave the building and go out into the community to serve. **Brainstorm ideas of where your group might serve.**
