

Grace Evangelical Lutheran Church Building Renovation

November 2025

The Journey Begins!

After a year of thoughtful design and preconstruction planning, Warfel Construction is proud to begin the next chapter of work at Grace Evangelical Lutheran Church. Our team is excited to bring this vision to life and remains focused on safety, quality, and collaboration every step of the way. We'll continue to share updates on progress and milestones and encourage questions or feedback from the congregation. Together, we look forward to creating a renewed space that will serve Grace Lutheran Church and its community for generations to come.

Schedule

Over the past few weeks, our team has been busy preparing the church for its transformation. This included interior demolition, digging underground pathways for utilities, and installing a new boiler to serve the sanctuary.

Throughout the next few weeks, you'll notice more activity as construction continues inside the building and material deliveries start to arrive. Temporary fencing has been placed around the front and back of the church to safely guide construction traffic and keep the area organized as work progresses. Crews will begin shaping new spaces within the church, turning the plans developed over the past year into visible progress.

Meet the Team

In each newsletter, we highlight a Warfel team member who is helping bring the new Grace Lutheran space to life! This month, we're featuring Marshall Nuckles, Superintendent.

Marshall has worked in construction for more than 18 years, beginning his career in HVAC before transitioning into the superintendent role he holds today. A lifelong Virginian, Marshall has called Winchester home for the past 18 years. He and his wife Shannon stay busy supporting their daughter Payton at volleyball games and their son Braydon riding dirt bikes. When he's not on site, Marshall enjoys spending time outdoors hunting or fishing, working in his woodshop, or visiting family in Gatlinburg, Tennessee.
