

# Share the Blessing!

2024

In Global Reach, we have the opportunity to step into the lives of believers throughout the world and give a timely gift that will increase the ministry the Lord is accomplishing through them. On this page are 3 different gift suggestions to bless our brothers & sisters this Christmas season. However you choose to “Share the Blessing,” know that – as you give to the Lord – He will use your gift to bless others at the right time... just when it’s needed most!

Thank you for your generosity, and may the Lord richly bless you as you bless others in His Name.

To give online, scan the QR code on the corresponding picture, or visit [CGGC.org](http://CGGC.org). To give by mail, send a check with “Share the Blessing #1, #2, or #3” in the memo line to the CGGC office at: PO Box 926 Findlay, OH 45839

## Brazil Church Construction

Good News Bible Church in Santo Antônio, Bahia, Brazil has secured land for a new church building. In order to start Phase 1 of their construction, the church is in need of additional funds. Phase 1 would include the assessments, surveys, permits and construction of a functional first level of the building including a space for worship, plumbing, and electricity. Pastor Roque Alves has pastored the church since 2013. The area is made of “simple” people, spiritually they are planted firmly on the Rock, Jesus. Brazil is an exciting field, and we are eager to see them flourish. The present need is \$44,000 to complete this phase of construction.

## Equipment for Bangladesh Hospitals

Our medical ministries in both Bogura and Khanjanpur are our most wide-reaching ministries in Bangladesh, and they are well loved in their communities for life saving Christian care. They are also in constant need of new medical instruments to do their jobs properly. Currently, Bogura Christian Hospital needs an Ultrasound Machine which is often used to monitor expectant mothers and their newborn children, and pediatric oximeters to monitor baby oxygen levels. Meanwhile, the Khanjanpur Eye Clinic is in need of an Auto Biochemistry analyzer and an EKG Machine as part of their standard operations. Our hope is to secure \$22,000 for these life changing medical instruments.

## India Fellowship/Education Center

We now have plans to further expand our fellowship and education work in northern West Bengal, India. The work was started in 2014, fellowshiping and educating about 35 families consisting of mostly cultivation laborers who are very poor. This established fellowship region of northern West Bengal is rapidly growing with new friends and children’s outreach. We would like to provide a new building for them in this region. Already, the leaders here are eagerly praying over the ground even before it’s been broken. Our goal for this fellowship-education center is \$14,000, which will help establish the center on land that has already been purchased.
