Why Now?

For over twenty years this project has been on our master plan. Our current pool shower house, built in 1968, has served the camp faithfully for decades. However, when we explored the possibility of renovating it to meet current accessibility standards and the needs of today's campers and guests, we discovered that a full rehabilitation simply wasn't feasible. Building a new facility became the only viable path forward. We are excited to name this new space The Meadow Restrooms because it will be designed for year-round use—providing comfort, accessibility, and convenience for every season of ministry and retreat programming.

GREтна GLEN MISSION STATEMENT

To joyfully welcome all people into God's creation, gathering together in community, and inspiring each other to do good.

GREтна GLEN VISION STATEMENT

We are a sacred space set apart that offers transformational opportunities for churches, communities and individuals. We seek to provide profound experiences that foster growth and offer encounters with the beauty of God's Creation. We strive to be a space where connections are forged, and individuals can deepen their understanding of God's love for all people.
