### **INFORMATION TECHNOLOGY**

#### **REPORT**

Warden Lucy Leske shared that Peter Barnes and Martin McKerrow have been working hard on this process, and St. Paul's currently uses a program called Date Base Manager although we may change systems.

Warden Liz Bristow spoke about the new Sexton position and explained the process of "being a sexton." They have reviewed a number of job responsibilities and are trying to devise a current list of all that is required. ### **REVENUE/GRANTS:**

Warden Liz Bristow shared that over the years St. Paul's has received a number of needed grants, "but they have always been written in an ad hoc sort of way." She noted that it would be wonderful if there was a Grant Committee that could research and do the background searches, etc., so it was recommended that we form a St. Paul's Grant Committee.

### **WARDEN'S REPORT**

Warden Lucy Leske noted that there needs to be a review of the St. Paul's By-Laws – which have standards and language from the Diocese - Toby Broadus agreed to help.

All is going smoothly during Max's sabbatical.
