Venturers President's Message

Dear fellow Venturers,

The fall meetings have been fun, interesting and meaningful. We have also had a positive influx of visitors and new members.

The Venturers dinner on November 2 will be most unusual as Loy Sneary, CEO of Gulf Coast Green Energy, informs us about how increased methods improve health with the natural things we grow.

Then, join us on December 7 as we share another magical evening with Mary Jane Sinclair and her harp. She will enrich us with her music and interesting stories of famous musical artists we have heard of and know.

Have a great two more months of 2026.

Blessings,
Toby Mattox
President

Adults 55+
