## Mark and Jenny Steinbach

Dear Friends,

Last month, was a milestone for *her.BIBLE* with a celebration luncheon at Lake Hart for *her.BIBLE* Español. Most of the people attending were Latino and there was much excitement over the release of *her.BIBLE* Español. Jenny shared about several Latina women with large social media followings who want to record books of the Bible in Spanish because they are passionate about reaching Spanish-speaking women for Christ globally.

One of the blessings of working at Cru's Lake Hart international headquarters is seeing visiting Cru staff members from around the world. Now that we are empty nesters, we have enjoyed hosting visiting staff in our home.

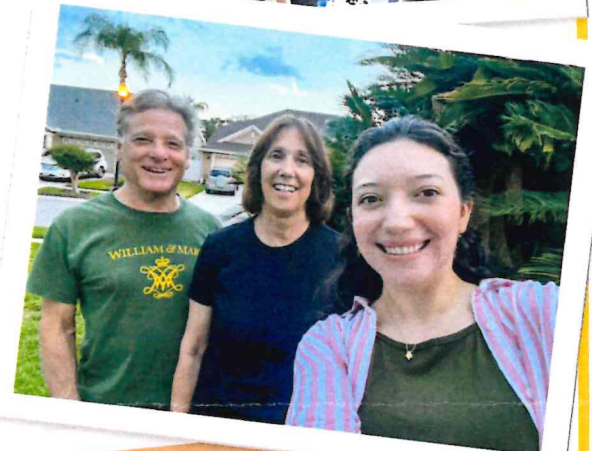

Last month, Karen stayed with us for five days. She is a staff member from Columbia working in their digital ministry strategies, but she married an American and now lives in Virginia. She learned about *her.BIBLE* and would like to join Jenny's team so she was visiting to find out more. She is the same age as our youngest son, Matt, so having her for a week was like having a daughter in our home.

She left early Saturday morning and our long-time friends, Mark and Nancy Austin arrived shortly thereafter for a few days. Mark and Nancy have lived in Paris for the last 25 years. Mark serves with the Jesus Film Project and Nancy is the operations director for the North Africa and Middle East region of Cru.

We also had two unexpected trips to Dayton, Ohio. Jenny's mother had a stroke in late March, so Jenny and her siblings were taking turns staying with their 93-year old father who did not want to be left alone. During our last trip, everything came together to move them into an assisted living facility. We are glad they are receiving the care they need.

Thank you for your desire to reach the world for Christ and investing in us.

*Mark & Jenny*
