

2026 Generosity Survey Results

109 people completed our survey this year, and we’re excited to share some highlights below of the results. Your thoughts reflect both strong participation and the deep love you hold for Red Clay.

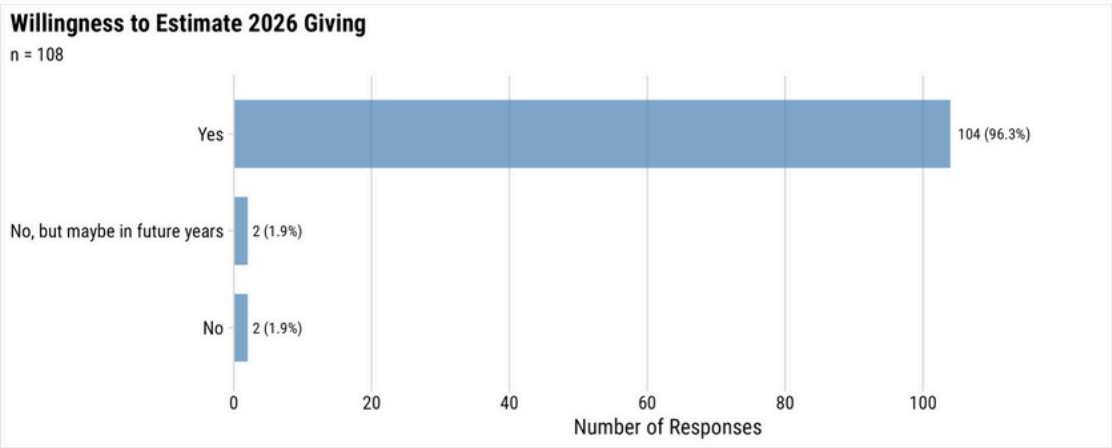

ENGAGEMENT

An encouraging 87% of our church family reported active participation in annual giving each year, indicating a deep spirit of generosity and commitment.

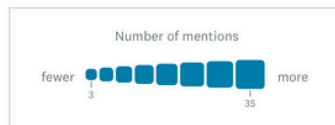

PARTICIPATION

An overwhelming 96.3% of respondents indicated they intend to estimate their giving for 2026, showing strong commitment for the year ahead.

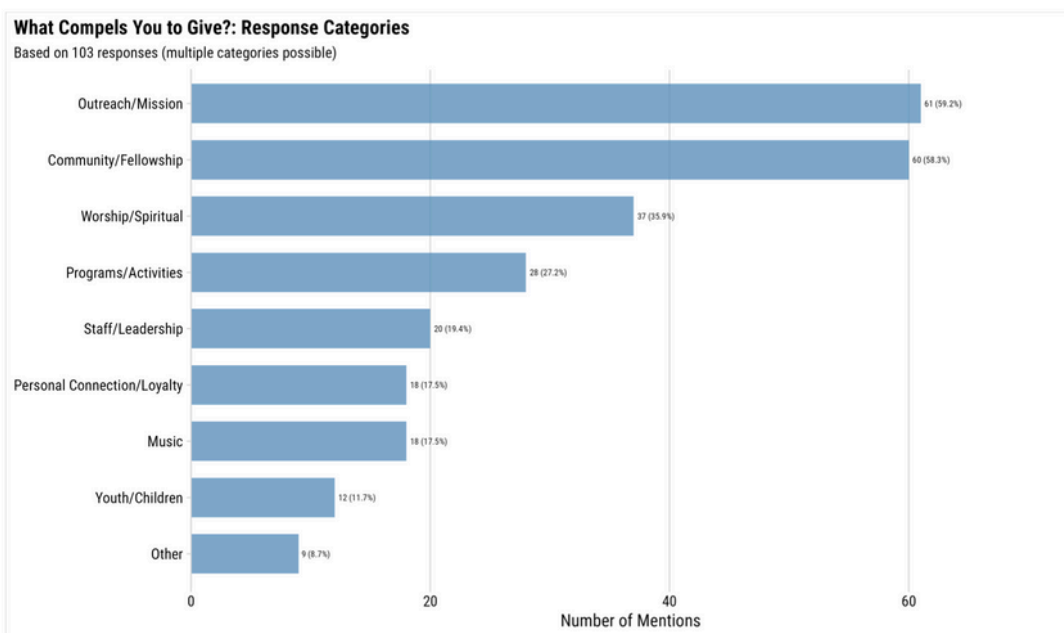

WHAT YOU LOVE

When asked what you love about Red Clay and what inspires your giving, you shared the following sentiments- the larger words represent those mentioned most often.

Here are those thoughts broken down into categories, outreach/mission and community/fellowship being the two strongest.

As we share these results, we want you to know that transparency remains central to how we approach stewardship. Our goal is to honor the many ways our congregation feels called to give by offering opportunities that reflect your needs and support your faith journey.

Together, we continue to grow in generosity and strengthen the mission we share at Red Clay.
