A NOTE FROM DR. MATHEWS

Music is transformative for children, fostering brain development, self esteem, leadership, confidence, and helping them solidify their Catholic faith while drawing closer to God. Our singers start young, and many flourish in musical theater and high school choirs. Some have become college music students, professional music directors, and organists. It is a joy and a blessing to walk with these children on their faith journey at St. Charles. As it says on our choir loft, "They who sing pray twice!"
