What MM does for Team Members:

- Online tax-deductible fundraising
- Tracking fundraising progress
- Accessing vital documents
- Storing personal and travel info
- Receiving trip updates
- Finding dates and deadlines

How do I get started?

1. Fill out the trip application link (a new one must be completed for each trip).
2. Access your account anytime at www.ManagedMissions.com
3. You can view your account as a "Leader" or "Participant". To switch from the "Leader" view, click the "Options" tab to the right of your trip name. This allows you to pay for your trip, create a personal "Public Profile," and view the limited tip that the rest of your team sees.

Creating a personal online fundraising link (Public Profile)?

1. Click the "Public Profile" link. Scroll to the bottom and upload a picture. Then click "SAVE AND PUBLISH."
2. Your new "Public Profile" link will be in the blue box on the upper right page, similar to this link: <https://ao.managedmissions.com/MyTrip/yourname>.
3. Click the link to see the "Public Profile" that your potential donors will see to make tax-deductible contributions to your trip.
4. Copy and paste your Public Profile link into emails and social media.
5. Use this link to describe your trip and receive online donations from your support team. Donations through the "Donate" button on the AO website are not credited towards your trip.
