

1. Why are we building now because we have additional room in our services?

Current church growth trends tell us when you are 80% full, you will stop growing. With the growth over the past several years, we are nearing that mark. As you know, we have expanded our parking onto grass areas and still today, we see people leaving because they feel like we are too full to walk into the building. We have mitigated some congestion by moving our second service back to 10:45 and we will move to 3 services on major holidays, yet still, we are growing.

2. Why are we trying to grow, I like the size of our church?

It is not our intention nor our goal to have a large church but to allow for God to move and to be available where He is moving. We also never want to stifle that growth if that is what He chooses to bring. Our desire is for everybody to Worship, Connect, and Serve in whatever size of space God calls us to.

3. Why should we borrow money? Is this biblical?

The Bible does not prohibit the use of debt. It warns in many passages that there can be problems in the use of debt. We believe that debt should be used sparingly and with much caution. We intend to cashflow as much of these projects as possible and then arrange financing without a personal guarantee.

4. Why are we building a student center?

There are several things to consider in the expansion on our property.

- 1) Students need a place to call their own and they are already outgrowing their room.
- 2) Another gathering space will be useful for events, gatherings, and services.
- 3) This will also allow for more room for Spanish and Children's areas to expand
