

WHAT TO EXPECT IN FIFTH GRADE

BIBLE Standard Publishing Biblical Choices

The Bible is the standard of absolute truth and the ultimate authority for all of life. Biblical instruction challenges students to come to know the God of the Bible, so that they develop a worldview centered on the gospel of Christ enabling them to live lives pleasing to Him.

Weekly study and memory verses will cover the following:

The Divided Kingdom	Ezra	Romans
Ezekiel	Job	Hebrews
Daniel	Ecclesiastes	I and II Peter
Esther	Malachi	Persecuted Church
Haggai and Zechariah	Messianic Prophecy	Jude
Nehemiah	Paul's Missionary Journeys	End Time Events
Proverbs	Galatians	Christian Doctrine
		Cults and World Religions

MATH Bob Jones Math 5

Mathematics is the language of God's precise and deliberate design. The study of mathematics enables students to understand and articulate the logic and patterns of God's created order and reveals that He is a God of detail and purpose.

Daily lessons and investigations will include the following components:

Facts practice, mental math practice, and problem solving

Instruction and practice in the new math concept

Homework (provide distributed practice on previously presented skills and concepts)

Concepts include:

Numeration: Place Value, Number Line, Roman Numerals

Addition/Subtraction

Multiple Step Problems

Order of Operations

Exponents and Square Roots

Fractions, Decimals, and Percent

Estimating and Rounding

Prime and Composite Numbers

Ratios

Greatest Common Factor and Least Common Multiple

Probability and Chance

Elapsed Time

Data Analysis

Pre-algebra

Measurement: Length, Capacity, Mass/Weight

Measurement: Temperature, Time Unit Conversion

Geometry: Lines, Polygons, Circles, Solids, Angles

Perimeter, Area, Circumference, Volume

Coordinate Geometry

Transformational Geometry and Symmetry

SCIENCE Great Minds - PhD Science

Science is the study of the natural world as spoken into existence by a creative God. Students study science in order to increase in knowledge of the Creator by means of exploring His design and purpose. This knowledge will prepare them to subdue and steward the physical world for the glory of God and the good of mankind.

PhD Science utilizes an Activity-Before-Concept, Concept-Before-Terminology approach. Students engage in activities to develop a basic understanding before a concept is presented and investigate the concept more until formal names or terminology is introduced. Through authentic anchor phenomenon, each module explores core science concepts to help students make sense of the world around them. Through observation, questioning, modeling, investigation, and evidence-based argumentation, students build knowledge that they can demonstrate by applying their understanding in different contexts through Science or Engineering Challenges in each module.

HISTORY Bob Jones Heritage Studies 5

History is the unfolding story of God's story as He reveals Himself to man. Christians are called to remember and make known God's story to each generation in order to know Him, become ambassadors of reconciliation, and to participate in the biblical meta-narrative. Therefore, students examine the history, culture, government, geography, and economics of the world and our nation in order to equip them to impact culture as they participate in His story.

Units include:

Geography

Nations of the Earth

Economy

Twentieth Century America

Twentieth Century America

1900 - 1909 Getting There Faster

1910 - 1919 World War I

1920 - 1929 The Roaring Twenties

1930 - 1939 The Great Depression

1940 - 1945 World War II

1945 - 1979 Recovery and Cold War

1980 - 2000 To a New Millennium

LANGUAGE ARTS Abeka Language | Novel Units | Excellence in Writing | Word Build

Language is God's gift to man in order to establish a relationship with Him and to live in community with one another. As a foundation to all other learning, the language arts are essential for thinking and communicating effectively, comprehending oral and written material, and developing a love for God's Word and other literature.

Grammar:

Subjects and Predicates

Eight Parts of Speech

Sentence Diagrams

Complements

Punctuation

The Writing Process:

Paragraphs

Friendly Letters

Essays: Expository, Narrative, Persuasive

Stories

Book Reports

Journalism

Research Report

Reading:

Novel Units (fluency, comprehension, literary components)

Read and Comprehension drills

Students will read:

The Story of Dr. Dolittle by Hugh Lofting

Pollyanna by Eleanor H. Porter

Home for Christmas by Susan Kirby

The Trick by Nancy Rue

Roll of Thunder, Hear My Cry by Mildred D. Taylor

Number the Stars by Lois Lowry

Through My Eyes by Ruby Bridges

Who Was Martin Luther King Jr.? by Bader

Summer of the Monkeys by Wilson Rawls

Just So Stories by Rudyard Kipling

Orthography:

Word Study and Vocabulary Building

SPECIALS

Chapel:

Lower School Chapel is held Fridays at 8:30.

Combined Chapel is held the last Friday of the month at 9:25.

Special Classes:

Minds in Motion (daily)

Physical Education (three times per week)

Music (two times per week)

Spanish (two times per week)

Technology (one time per week)

Art (one time per week)

Library (one time per week)

Special Projects:

Faithful Few Talk Show

I Have a Dream Recitation

Field Trip:

Camp Timber-lee (Outdoor Education in East Troy, Wisconsin)

Jerusalem Project:

Stockings for Soldiers

Prayer Walk for Local Churches
